Completed bracket forms must be turned into pool judge prior to tipoff of the first game in the tournament. Forms should include predicted outcomes to all 64 games in the tournament and a tie-breaker final score total for both teams in the championship game.

Only teams predicted to win each game may be included in the next round and subsequent brackets.

Incomplete forms will be scored according to completed areas only, and forms not including a championship game total will forfeit the tie-breaker to any other tied-score participant that included a championship game total on his/her form.

Underdog Scoring: If you successfully predict an underdog to win a game, you earn that round level of points for the win, in addition to the difference in tournament seeds. For instance, if you pick a #11 seed to upset a #6 seed in the first round, you will earn 1 point + (11-6 = 5) 5 additional points for a total of 6 points for that pick. If you successfully pick a favorite to win a game, you will only earn the points awarded in that round.

Only teams predicted to win each game may be included in the next round and subsequent brackets.

Incomplete forms will be scored according to completed areas only, and forms not including a championship game total will forfeit the tie-breaker to any other tied-score participant that included a championship game total on his/her form.
